

2019 SMR Congress Session Topics

- RAS Family GTPase Signaling
- Microenvironment
- Melanoma Metastasis: Models and Mechanisms
- Melanoma Epigenetics
- Advances in Melanoma Predisposition, Early Detection and Prevention
- Women in Science
- Modeling Melanoma and the Immunotherapy Era
- Signaling Pathways and Targeted Therapies
- Metabolism
- Advances in Acral, Mucosal and Uveal Melanoma
- Melanoma and the Immune System
- Late Breaking Clinical Abstracts

2019 SMR Congress Invited Faculty Members

Rutao Cui, Boston University

Richard Marais, Cancer Research UK
Manchester Institute

Gaudenz Danuser, UT Southwestern

Daniel Peeper, Netherlands Cancer
Institute

Amanda Lund, Oregon Health & Science
University

Poulikos Poulikakos, Ichan School of
Medicine at Mount Sinai

Marisol Soengas, Spanish National
Cancer Research Centre

Michael Davies, MD Anderson Cancer
Center

Richard White, Memorial Sloan
Kettering Cancer Center

Marlana Orloff, Thomas Jefferson
University

Alexander Lazar, MD Anderson Cancer
Center

Nicholas Hayward, QIMR Berghofer
Medical Research Institute

Monika Janda, University of Queensland

Sancy Leachman, Oregon Health &
Science University

Arlene Sharpe, Harvard Medical School

Meenhard Herlyn, The Wistar Institute

Toni Ribas, University of California, Los
Angeles

Stefani Spranger, University of Chicago

Andrew Oberst, University of
Washington

Kunal Rai, MD Anderson Cancer Center
